

Infrastructure
Series 900

Policy Title: Infrastructure Code No. 900

Policy Statement

Heartland AEA provides infrastructure that supports an effective and efficient environment in which to achieve the Agency's mission.

Scope of Policy

Infrastructure is defined as all resources, tools, and facilities that support staff needs and client services.

Accountability Overview

The chief administrator is responsible for ensuring a process for long-range facility planning.

An Infrastructure Improvement Plan is updated annually as part of Heartland AEA's budget process and periodically shared with the Board.
