

Math Consulting & Coaching

Heartland AEA math consultants partner with district leaders to identify needs and provide personalized support aligned to each teacher's instructional goals.

Math consultants also collaborate closely with teachers to brainstorm practical solutions, select and implement proven strategies and reflect on progress – all with the goal of improving student learning.

Activities & Support

Math consultants customize their work with district leaders and educators to tackle problems of practice in order to meet instructional needs. Activities and support include, but are not limited to:

- Curriculum adoption
- Instructional practices audits
- Creation of district instructional vision for mathematics instruction
- Data analysis
- Standards implementation
- Implementation of 8 Effective Teaching Practices
- Book studies
- Supplemental materials to support diverse learners
- Universal screening
- Progress monitoring cycles
- Observations and feedback cycles
- Implementation coaching
- One-to-one problem-solving/planning

Affordable

Through our service for fee model, school districts access the benefits of coaching without adding staff or committing to a full-time employee.

Custom Plans

Prior to starting the program, participating school districts select the total number of contractual days ranging from 10 to 170.

Embedded Support

Provide your team with individualized, ongoing support throughout the school year, helping them grow and reach their goals.
