

## GIFTED & TALENTED PROGRAM Consultation & Coaching

Teaching gifted and talented learners presents unique challenges and opportunities. Our consultation and coaching services help you effectively differentiate instruction, foster student growth and address the needs of your students.

With research-based strategies tailored to your classroom context, we aim to enhance your confidence and effectiveness in meeting the needs of gifted learners.

## Gifted & Talented Consultation & Coaching

Consultation and coaching can help fill gaps in expertise and program quality, providing targeted support when a district's internal expertise in gifted and talented education may be limited.

We can provide modeling and coaching as your team designs, implements, and monitors effective gifted programming in alignment with state requirements. Consultation and coaching is often requested by districts after engaging in the G-SAP program review.
